SAFARI GATEWAY LTD / VISITOR INFORMATION

Child Protection and Responsible Travel

Every child has the right to safety, dignity and privacy. As a member of The Code, Safari Gateway Ltd works to prevent the sexual abuse and exploitation of children in travel and tourism.

This commitment covers our trips in Unguja, Pemba and mainland Tanzania, including safaris, marine excursions, community visits, transfers and accommodation arrangements.

How you can help

Ask the parent or guardian and respect the child's wishes before taking or sharing photos or videos. Respect children's privacy during community visits and follow your guide's instructions.

If you suspect abuse or exploitation, report it promptly. Share what you observed, where and when. Keep identifying details private and avoid sharing them on social media.
